

Measurements for Ice Show

A ● GIRTH

Measure from the center of one shoulder, down the front of the torso, through the crotch and up the back to the starting point.

B ● BUST

Make sure the dancer's arms are in a relaxed demi port de bras (as shown in picture), continue to measure around the fullest part of the chest, keeping the tape measure parallel to the floor.

C ● WAIST

Measure around the natural waistline, the narrowest part of the upper body (never measure over shirt or pants).

D ● HIPS

Measure around the fullest part of the lower body, keeping tape straight and parallel to the floor.

E ● INSEAM

Measure from the inside of the leg from the crotch down to the ankle bone.

Skater Name: _____

A) Girth:

B) Bust/Chest:

C) Waist:

D) Hips:

E) Inseam:

Measurement tips:

- Please print clearly!
- For the most accurate measurements, use a measuring tape meant for taking clothing measurements
- Have the skater wear a leotard, bathing suit or undergarments while being measured, not street clothes
- Measure carefully!
- Hold tape slightly loose while measuring
- Remember young children will continue to grow
- Girth is the most important measurement when deciding on size

Please return form to Skate Oakville office by January 14th, 2019 or you will miss the costume order deadline!
