Skater Change Room Policy

Purpose: To maintain a safe, respectful, and appropriate environment for all skaters.

Change Room Access

Parents and guardians are not permitted to enter the skater change rooms before, during, or after skating sessions. These spaces are designated for skaters and are intended to provide them with a safe environment to use during their skating sessions.

Exceptions

Exceptions are made for skaters in PreCOMP/COMP 1 and CanSkate programs, who may require parental assistance. As skaters progress beyond these introductory programs, they are expected to develop independence and take responsibility for their own preparation, including putting on and tying up their skates.

Respect and Compliance

All parents and guardians are expected to respect this policy and the privacy of other skaters. Entering the change room when not authorized does not align with the club's expectations for maintaining safe and respectful boundaries.

Thank you for respecting this policy and supporting our commitment to the safety, privacy, and well-being of all skaters.
